Who I Help

Federal agencies, prime contractors, and FFRDCs working spectrum regulatory, certification, and policy questions. They need someone who has stood on every side of the spectrum process and can move a requirement through it.

What I Can Do For You

- **Get equipment certified and supportable.** DD-1494 certification support, spectrum supportability risk assessments (SSRA), and regulatory impact analysis that anticipate the reviewer's questions before they are asked.
- **Solve the interference.** EMC and interference analysis, coordination, and mitigation for systems that have to share a crowded band.
- **Navigate the regulators.** FCC/NTIA regulatory analysis and federal-side ITU coordination for satellite and terrestrial systems, translated from policy into action.
- **Modernize the process.** Advisory on spectrum certification workflow, backed by SMART CAT, a purpose-built toolkit that compresses the certification paper chase.

Why Me

A 22-year U.S. Marine Corps veteran, retired Chief Warrant Officer and Strategic Electromagnetic Spectrum Officer, with 25+ years working electromagnetic spectrum across defense, intelligence, and commercial aerospace. I have operated on both the warfighter and the regulator sides of the problem: high-level government and commercial spectrum coordination and equipment certification, with fluency across the full regulatory stack. That career included extensive work at the TS/SCI level. Policy depth paired with technical range, including a BS in Computer Science, an MS in IT Project Management (in progress), and hands-on software development. Founder holds an active TS/SCI clearance; details available on request. CCG delivers unclassified work product and holds no facility clearance.

Principal's Core Expertise

DOD CERTIFICATION

DD-1494, SFAF (Pub 7), SSRF (Pub 8), EL-CID, SSRA, DoDI 4650.01, MCEB, Joint Spectrum Center

FEDERAL AGENCY INTEGRATION

NTIA/IRAC coordination, FCC/NTIA shared band management, interagency deconfliction

SATELLITE COMMUNICATIONS

Ka/Ku/S-band, GSO/NGSO, EPFD analysis, link budgets, federal-side ITU satellite coordination

GPS COORDINATION

GPS re-radiation authorization, frequency coordination with FAA, NTIA/IRAC, and DoD spectrum offices, L1/L5 interference

EMC ANALYSIS

Electromagnetic compatibility studies, interference analysis, SSRA methodology (DoDI 4650.01)

BUILT SMART CAT

SMART CAT: a source-cited regulatory AI terminal (beta), with DD-1494 and SFAF validation in development

COMPANY	Texas LLC (DBA One ColliCore) · New Braunfels / San Antonio, TX · SAM-registered (CAGE 22TP1 · UEI J1K1YXCEW2F5), active for all federal awards
CERTIFIED	SBA-Certified SDVOSB and VOSB (SBA VetCert, 09/03/2026–09/03/2029) · Verify: search.certifications.sba.gov/profile/J1K1YXCEW2F5/22TP1
NAICS	541690 (primary) · 541330 · 541611 · 541512 · 541519 · 485999 · 493110
CONTRACTING	Eligible for SDVOSB set-asides and for sole-source awards up to \$5M (FAR 19.1406) · VA Veterans First restricted competition (38 U.S.C. § 8127) · SDVOSB goal: 5% of prime and subcontract awards (15 U.S.C. § 644(g)(1)(A)(ii)); primes with subcontracting plans count subcontracts to CCG toward their SDVOSB goals (FAR 52.219-9) · Available for prime, subcontract, and teaming
LICENSURE	CCG is not a licensed engineering firm and does not offer or perform professional engineering services; deliverables requiring a licensed professional engineer are referred or teamed.
